

World Geography

1. Be able to present knowledge and projects dealing with the following items: the earth/sun relationship, atmospheric and oceanic circulation, landforms, climate, vegetation, population, economic and political structures, culture, cultural diffusion, and international and interregional connections.
2. Have various map works that you have created to show knowledge on map making.
3. Incorporate one research writing piece into one of your projects.
4. One project of your choice must be presented in a formal speech format.
